Parkman, OH 44080**

Susan Conover began spinning and weaving in 1980 and spent the next two decades studying under numerous international teachers. Her focus has always been on the historic aspects of the craft. Since 2000 she has offered courses in spinning and weaving from her studio. She is always willing to share her passion for weaving and spinning with her students.

Have you ever wanted to explore dressing your loom with fine cotton warp? What about interlacing that fine warp with a singles linen yarn? This cost-saving technique was done for centuries throughout Europe and allowed the weaver to get the job done quickly!

This is a two-day workshop, in which you bring your own portable 4 or 8-Shaft table or floor loom completely dressed and ready to throw the shuttle. We'll learn about the drafts used and helpful ergonomics in weaving. In addition, a BONUS DAY for loom dressing has been added (without charge) on Saturday, August 11, 2018 so that you'll feel confident going into the workshop in September. For participants who can't join us on the Bonus Day, there will be a video posted to a Dropbox account for you to view so that you too can be completely prepared. Participants will have plenty of time, in their own home, to prepare their looms for the workshop.
